

Adjustable Size

The adjustable size allows you to fit a wide range of tablets. The bracket is designed to accommodate tablets with a width of up to 200mm and a depth of up to 100mm. It is compatible with the VESA 75mm hole pattern.

The adjustable size is achieved through the use of slide clips on the front and rear of the bracket. This allows you to adjust the width and depth of the cradle to fit your tablet perfectly.

Rugged design

The rugged design of the bracket ensures that your tablet is protected from damage. It is made from high-quality polycarbonate and steel, which provides excellent durability. The bracket is also designed to be easily removed from your vehicle without the need for tools.

Secure fit

The secure fit of the bracket ensures that your tablet is held firmly in place. The slide clips on the front and rear of the bracket provide a snug fit, preventing your tablet from slipping out. Additionally, the bracket features a built-in heavy-duty key lock for extra security.

Features

- Designed to hold consumer tablets.
