# Joiner System

The Zirkona Joiner System provides endless opportunities to assemble flexible and stable mounts for laptops, tablets, screens and TVs.

The components are made out of durable aluminium and are vibration tested to ensure flawless performance, even in the toughest of environments.

Components can be assembled onto a variety of mounts suitable for cars, trucks, recreation vehicles, homes, offices or industrial use. The unique flexibility of the ball joint enables the mount to be easily adjusted into an ergonomic working position.

**601010**

Joiner Quicker

Installed on the window pane or planar surfaces.

**602110**  
Joiner Universal Mount

Mount can be used together with Zirkona Joiner System. Also fits Volvo F cabin.

**604010**  
Joiner Medium short

Ideal in confined spaces, eg. close to the steering wheel.

**602080**  
Joiner Quick release

## An ergonomic workplace

Mobile working can save a lot of time and improve profitability. But if your staff are forced to work in positions that increase strain, then it could lead to more sickness and reduced productivity.

It is therefore important that staff who work in mobile environments are given the best working conditions to carry out their jobs.

Stands from Zirkona are easily adjusted to provide ergonomically sound conditions for your driver. This enables your driver to quickly adapt the mobile workplace, so that they can work in the most efficient position.

**501100**  
Bracket Hold Large

Fits all laptops 13–17" (280–400mm). The computer is stabilized from the sides by the use of a crank. Adjustable side brackets for access of power cable and USB etc.

**501200**  
Bracket Hold small

Fits all laptops 8–13" (210–300mm). The computer is stabilized from the sides by use of a crank. Adjustable side brackets for access of power cable and USB etc.

**503000**  
Screen Keyboardplate

Is used together with Vesa 75 or the Zirkona Joiner System. Is used for an easy way to fix both the screen and keyboard in the truck or other similar vehicle.

## Products

All Zirkona stands are developed to function flawlessly in vehicle environments. If you need to remove a stand quickly and easily, we recommend Zirkona ZiOne, Hook and Seat Holder, all installed without using screws.

The flexibility of the stand is achieved through the integration of the Zirkona Joiner with its unique ball joint, making it easy to adjust for your driver's needs.

## Accessories

The accessories to Zirkona stands should be seen as suggestions. All stands are compatible with the Zirkona Joiner System and can therefore be adapted to every need.

**401690**  
Zirkona ZiOne

Mounted on the window with a suction cup. Flexible telescopic arm. A convenient solution for those who want their notebook / PC on the go. Easily removed and can be moved between cars. Fits 8–13" (210–300 mm) notebook / PC / Touch screens.

**401719**
